Welcome to the new Electronic Comment Filing System

Welcome to the Federal Communications Commission's Electronic Comment Filing System (ECFS). ECFS serves as the repository for official records in the FCC's docketed proceedings and rulemakings from 1992 to the present. Consumers can research, retrieve, view, and print any document in the system, including earlier non-electronic FCC documents that have been scanned into the system.

ECFS includes the following features.

- **Search for Filings:** Search for and view public filings and Commission items. You can export, or generate a Really Simple Syndication (RSS) feed of your search results.
- **Search for Proceedings:** New search screen to find a proceeding (Docket Number, Rulemaking Number, etc.).
- **Submit a Filing:** The standard form for submitting filings to ECFS if you want to send Word, PDF, or Excel files. This form now includes the ability to submit your filing into multiple proceedings.
- **Submit a Filing (Express):** A simpler form to submit brief comments.
- **Check Your Filing Status:** Use your confirmation number to check whether the filing you made is available online.

Some of the new features are explained in more detail below. Please also check out the [ECFS Online Manual](#) for more information on all of the available features. Most pages will have the  help icon on the top right for more information.

New Features

- **Proceeding Home Page:** Any place in ECFS where you see a linked proceeding name, clicking on it will take you to the ECFS "home page" for that proceeding. This
